Summary

Enthusiastic **Game Tester** with 2+ years of hands-on experience in PC and mobile game testing, including **client-facing communication** and collaboration. Skilled in identifying and reproducing bugs, coordinating with developers, and conducting **stress testing, ad hoc testing, and sanity checks** to ensure gameplay quality. Proficient with debugging tools (WinDBG, FRAPS), cross-platform QA, and test automation. Adept at ensuring immersive, bug-free gaming experiences by combining technical expertise with a passion for games and user satisfaction.

Skills & Tools

Game Testing & Quality Assurance:

- Functional, Sanity, Ad Hoc, and Stress Testing
- Pre-release testing of **PC and mobile games**
- Identifying and documenting bugs, issues, and glitches
- Performance testing using **FRAPS, PresentMon, WPR**
- Understanding of **quality settings permutations and game technologies**
- Strong knowledge of **Windows application lifecycle**
- UI/UX, game mechanics, AI behavior validation
- Client coordination and communication

Technical Skills:

- **Programming Languages:** JavaScript, Python, Java
- **Scripting & Automation:** Python, PowerShell, Bash , Shell
- **Cloud Platforms:** AWS, Azure, GCP
- **Operating Systems:** Windows, Linux (Ubuntu, CentOS 7)
- **Version Control & CI/CD:** Git, Jenkins
- **Windows Debugging Tools:** WinDBG, EventViewer
- **Data Visualization:** Google Sheets, PowerPoint

Professional Experience

Drevol LLC **August** *2024 - Present*

- Conducted **Windows update compatibility testing**, including **sanity and ad hoc testing**, to ensure reliability and rapid validation of system behavior across environments
- Executed **stress testing** and validation cycles to assess performance under load and detect system-breaking issues early
- Automated deployment workflows with PowerShell, reducing manual effort by 40% and improving procedural efficiency

- Developed and optimized cloud resource provisioning scripts, cutting cloud billing costs by 30%
- Collaborated with senior engineers on test strategies and tooling, achieving 98% success on initial deployments
- Communicated testing outcomes with stakeholders, ensuring clarity in defect tracking and resolution progress

Game Tester | ANTIDOTE.GG and GameTester.gg ***(Remote)*** January *2022 – July 2024*

- **Conducted** manual and exploratory testing on **10+ PC and mobile games** as a **freelance game tester**, identifying **critical defects** that enhanced game stability by **30%**.
- **Collaborated** remotely with **multiple game development teams**, ensuring **95% of reported bugs** were tracked an nbvcdsad resolved efficiently.
- **Used in-game developer tools, crash logs, and community bug reports to identify and troubleshoot 10+ game crashes, improving overall gameplay stability.**
- **Validated** game mechanics, physics, UI elements, and AI behavior across various game genres, ensuring **99% accuracy** in gameplay consistency.

Games and Platforms Tested

- **Ragnarok V: Returns , Sandbox Stress testing**
- **Stampede , Disney Speedstorm**
- **Clicli Platform , PC Builder closed Alpha - VI**
- **Destroy All Humans 2**
- **Mountain Valley 3 , My Neighbor Alice**
- **RE Match , Puzzle Quest 3**

Education

B.Tech in Computer Science & Engineering

Institute of Technology and Management Vocational University, Vadodara
July 2019 – September 2023 *| CGPA: 9.0*

Certifications

- Game Testing Fundamentals – Udemy **January 2022**
- Python for Automation – Coursera **May 2021**
- Microsoft Azure Fundamentals **September 2021**
- Google 30 Day Cloud Challenge **December 2022**
